Importing Data into PostgreSQL on Amazon RDS. Suppose that you have an existing PostgreSQL deployment that you want to move to Amazon RDS.

[mysql error 1064 created using mysql workbench](#)

```
I created this using MySQL WorkBench CREATE TABLE IF NOT EXISTS `bakasura_new`.`cities` (`id` INT(11) UNSIGNED NOT NULL AUTO INCREMENT, `name` VARCHAR(255) NOT NULL COMMENT 'City Name');
```

[the only proper pdo tutorial treating php delusions](#)

Reply: Hello John. At least for mysql, there is no way to tell "the last" record, unless you have a field designated for this purpose. So I would recommend either an auto_incremented id, or at least a datetime field that would hold the time when the row was added.

[learn to code choosing a programming language](#)

What language should you learn? Php arrives first. In my opinion, the first language you should learn is Python. It's simple, efficient, used in many domains and the documentation is great.

[error 1067 the process terminated unexpectedly when](#)

no its not plain broken at all, i have it working flawlessly on 65 dev windows 7 machines at work, 18 servers (both nix and windows 2008R2), and on my home computers mix of windows 2008 and seven.
